CERTIFICATIONS

HashiCorp Certified: Terraform Associate

Terraform

Microsoft Certified: Azure Developer Associate

Microsoft

Microsoft Certified: Azure Administrator Associate

Microsoft

AWS Certified Cloud Practitioner

Amazon Web Services

EDUCATION

Masters in DevOps | UNIR

2025 - 2026 | Madrid, Spain

Software Engineer | U-TAD

2018 - 2022 | Madrid, Spain

SKILLS

Cloud & Infrastructure

AWS · Azure · (GCP exposure)

Infrastructure as Code

Terraform · Bicep

Containers & Orchestration

Kubernetes · Docker

CI/CD

GitHub Actions · Jenkins · Azure

DevOps · GitLab CI

Observability & Reliability

Grafana · Prometheus · DORA metrics

· Azure Monitor

Programming & Automation

Python · Bash · PowerShell · C#

Core Practices

Infrastructure as Code · SRE practices

· Platform Engineering · Agile

LANGUAGES

English, B2

Spanish, Native

Galician, Native

EXPERIENCE

MULTIVERSE COMPUTING | DEVOPS ENGINEER

Oct 2025 - Today | Madrid, Spain

- Designed and operated **cloud infrastructure for AI and production workloads** across AWS environments using Terraform.
- Managed **Kubernetes platforms across 10+ clusters (dev, staging and production)**, supporting **30+ deployments** and multiple engineering teams.
- Supported a **multi-account AWS environment with 100+ accounts**, provisioning and managing cloud services such as **IAM, S3, RDS and Secrets Manager**.
- Implemented **centralized observability using Grafana** and monitoring solutions across Kubernetes environments, including **90+ API health checks** and alerting workflows.
- Built **reusable CI/CD templates and deployment pipelines adopted across 30+ services** using GitHub Actions, Argo CD and Kubernetes.
- Implemented **DORA metrics dashboards using Apache DevLake** to improve visibility into deployment performance and reliability.

INFOSER NT | DEVOPS ENGINEER

Dec 2024 - Oct 2025 | Madrid, Spain

- Designed and implemented **CI/CD pipelines in Azure DevOps**, automating build and deployment workflows to improve delivery efficiency.
- Developed **scalable tools using .NET**, deploying them across **multiple Azure Functions** apps to enhance system modularity and performance.
- Engineered **workflow orchestration using Azure Logic Apps**, streamlining service integrations and process automation.
- Provisioned and **managed cloud infrastructure as code** using Bicep and Terraform to automate Azure resources and reduce manual operations.
- Implemented **automated code quality and security scanning** using SonarQube and Black Duck.

EVOLUTIO | SENIOR S&IT CONSULTANT

Jun 2024 - Dec 2024 | Madrid, Spain

- Designed and maintained **CI/CD pipelines in Jenkins to automate build and deployment workflows**, improving delivery efficiency.
- Administered Linux and Windows Server environments** to support development and production workloads, ensuring system stability and reliability.
- Provisioned cloud infrastructure using Terraform**, applying Infrastructure as Code (IaC) practices to streamline resource management and deployment consistency.

DELOITTE | CLOUD ENGINEERING CONSULTANT

Sep 2022 - Jun 2024 | Madrid, Spain

- Developed and automated CI/CD pipelines** using Azure DevOps and scripting (Bash / PowerShell)
- Managed cloud infrastructure and application telemetry** using Azure Application Insights
- Validated APIs** using Postman and Swagger to **ensure system reliability and quality**
- Supported enterprise cloud transformation projects** adopting **Infrastructure as Code** practices
